VERSION WITH MARKINGS TO SHOW CHANGES MADE

Changes made to the application by the present amendment are indicated below, with brackets indicating deleted matter and underlining indicating added matter.

IN THE SPECIFICATION

The new section entitled "CROSS-REFERENCE TO RELATED APPLICATION" which was added to page 1 before line 1 as requested in the preliminary amendment of October 15, 1999, has been deleted and replaced with the following replacement section:

--CROSS-REFERENCE TO RELATED APPLICATION

This application is a continuation of application Serial No. 08/844,431 filed on April 18, 1997, now U.S. Patent No. 6,037,995.--

IN THE CLAIMS

New claims 19-23 have been added.

Claims 12-15 have been amended as follows:

--12. (Amended) A digital broadcasting receiver which displays video or a plurality of character information strings of programs when receiving digital broadcasting, comprising:

an omission display controller which omits a part of a character information string of a particular program when a number of characters in the character information string of the particular program [cannot] is larger than a number of characters which can be displayed [in full] in a first prescribed zone; and

a full display controller which displays, in response to a predetermined selection, an entirety of the character information string of the particular program [from which a part was omitted] and time information of the particular program in a second prescribed zone.

13. (Amended) A digital broadcasting receiver according to claim 12, further comprising a judge controller which judges whether a number of characters in the character information string of [a] the particular program is larger than the number of characters which can be displayed [in full] in the first prescribed zone.

14. (Amended) A digital broadcasting receiver according to claim 12, further comprising a select controller which selects [a] the character information string of [a] the particular program from the plurality of character information strings of the programs.

15. (Amended) A digital broadcasting receiver according to claim 12, wherein the omission display controller adds an

omission symbol to a remaining part of the character
information string of the particular program from which a part
was omitted when displaying the remaining part of the
character information string of the particular program from
which a part was omitted in the first prescribed zone.--
